# Integrations

We work closely with recognized partners to deliver top-quality software and exceptional service so you can offer your customers the superior retail experience they deserve.

Acceo Logivision collaborates with third-party suppliers to ensure the full integration of back-office applications, card authorization processors, loyalty interfaces and hardware produced by leading manufacturers. We leverage our strengths to serve you better. Take your high-speed retail business one step further with these integrations.

## Payment integration

---

Acceo Logivision POS supports many of today's essential payment methods such as credit, debit, check processing, and gift card and loyalty programs. Acceo Logivision is EMV-ready and compliant with all Payment Card Industry (PCI) merchants and software. Our solution meets the association's Strict Payment Application Data Security Standard (PCI PA-DSS).
